

Global Medical Grants & Partnerships

2025 Application and Review Cycles

Independent Research Grants:

Investigator Sponsored Research (ISR) and General Research

In order to continue to provide an efficient and transparent review process for the Research Grants program, we are pleased to announce the following application cycles for 2025. Our commitment is to review all proposals and communicate decisions by the notification dates below:

Application Submission Deadlines

January 8, 2025
May 7, 2025
September 3, 2025

Notification Dates*

April 7, 2025
August 4, 2025
December 8, 2025

*Please note studies involving an asset from an inter-company Alliance may require additional time or follow a modified process due to established inter-company Alliance review process.

Important note for applicants: Please do not wait until the submission deadline to enter your request into the online portal. Plan to apply early to allow time for clarification questions and to ensure completeness. For applicants outside of US, the review process may require additional time.

Qualified researchers are invited to submit investigator-sponsored research (ISR) and General Research proposals, according to the guidance and instructions found on the Pfizer ISR portal at www.Pfizer.com/ISR. All proposals must be submitted via the ISR submission portal. An ISR proposal requesting Pfizer support (e.g., funding and/or drug supply) is not a guarantee of acceptance or approval of that proposal. Decisions on support for ISR and General Research submissions are made by the applicable Pfizer global review committee. A formal notification regarding the status of your application will be sent on or before the posted notification date. Pfizer support will only be extended upon the execution of an agreement. For any questions, please send an email to GlobalMedicalGrants@pfizer.com. A list of assets available for ISR proposals, including Areas of Interest, are available on www.Pfizer.com/ISR.
